CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30th JUNE 2019

GENERAL INFORMATION

The United Republic of Tanzania was formed on 26th April 1964 out of the union of two Eastern Africa sovereign states of Tanganyika and Zanzibar. This Consolidated Financial Statements for the financial year 2018/2019, provide a record of the Government of the United Republic of Tanzania with the Ministerial transactions that crosses over; and includes statement of financial performance, statement of financial position, cash flows statement, statement of change in net assets / equity, notes to the financial statements and statement of comparison of budget versus actual for the year ended 30th June 2019.

The Governance structure of the Country is a unitary presidential democratic republic, whereby the President is both the head of state and head of government; Executive power is exercised by the Government, Legislative power is vested on the Parliament and the Judiciary is independent of the executive and the legislature. The Sectorial classification of Public Sector in Tanzania is grouped into two categories; the General Government (Central Government, Regional Secretariats, Social Security Funds and Local Government Authorities) and; the Public Corporations sector i.e. financial public corporations and non-financial public corporations. The General Government sector consists of all government units and Non-Profit Institutions (NPI) that are controlled by government units, while the public corporations subsector consists of all corporations controlled by government units or other public corporations. General Government also includes public enterprises, legally constituted as corporations, but that do not satisfy the criteria to be treated as corporations.

It is the Government's duty and responsibility to ensure that, service delivery is improved and income is equitably distributed across the jurisdiction by promoting entities within the Public Sector. In order to enhance accountability and transparence, the Government requires all PSE to keep proper books of accounts that complies with the Generally Accepted Accounting Principles, Public Finance Act of 2001 (revised 2004) with a number of Finance Acts that amended some sections, International Public Sector Accounting Standards (IPSAS) and other Guidelines and Directives as may be prescribed by the Paymaster General and the National Board of Accountants and Auditors (NBAA).

The Bank of Tanzania (BoT) is the official Banker of the Government of the United Republic of Tanzania. On the other hand, the Attorney General is the legal counsel of the Government and handles litigations and all legal matters involving the Government and its entities. The details and physical address of Ministry of Finance and Planning, Bank of Tanzania, Controller and Auditor General and Attorney General are as detailed herein below:

CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30th JUNE 2019

STATEMENT BY THE HONORABLE MINISTER FOR FINANCE AND PLANNING

The results for financial year 2018/19 demonstrate the Government's commitment to managing the economy well, together with prudent and effective fiscal policy. The Government is on track to deliver on the Budget responsibility while making the long-term, sustained investments needed to build infrastructure, lift productivity, and build a more sustainable and inclusive economy.

The financial year 2018/19 is the second year of implementing the five years strategic plan (2017/18 – 2021/22). The development of the strategic plan takes into account the strategies of second First Five-Year Development Plan (FYDP II) 2016/17 – 2020/21 and the aspirations of the Ruling Party Manifesto that geared upon attaining better socio-economic performance in achieving the Tanzania Development Vision 2025, and Sustainable Development Goals (SDG 2030). The strategy was developed to address identified critical issues through which the following objectives were to be attained:

- i. Non-Communicable and HIV and AIDS infections reduced and supportive services improved;
- ii. Implementation of National Anti-corruption Strategy enhanced and corruption incidences reduced:
- iii. Equitable Economic growth improved and macroeconomic stability sustained;
- iv. Financial Management and Accountability improved;
- v. Resources mobilization, allocation and utilization improved;
- vi. Stakeholders' consultations, communication and participation improved;
- vii. Pension and Non-pension benefits administration improved;
- viii. Staff performance and Service delivery improved

(a) Resource Mobilization

i. Domestic Revenue

The Government estimated to collect domestic revenue from tax revenue and non- tax revenue (including LGAs own sources) amounting to TZS 20,894.57 billion. Up to 30th June, 2019 the actual domestic revenue collection was TZS 18,479.47 billion equivalent to 88 percent (2017/18 at 86%) of the total annual estimates. The actual tax revenue collected was TZS 16,010.89 billion equivalent to 89 percent of the estimated tax revenue amounting to TZS 18,000.21 billion. Moreover, the actual non- tax revenue collected (including LGAs own sources) was TZS 2,468.6 billion being 85 percent of the target of estimates at TZS 2,894.36 billion and 7 percent increase compared to 2017/18. The Government has strengthened management of existing sources by intensifying the use of electronic collection systems and widening tax base by formalization of the informal sector, creating conducive environment to attract business and investment. Moreover, the Government has improved supportive infrastructure, Tax incentives, Policy stability and predictability, Land accessibility and, well structured legal and regulatory frameworks to increase domestic revenue.

ii. Grants and Concessional Loans

The Government planned to mobilize external resources (grants and concessional loans) from Development Partners amounting to TZS 2,676.7 billion of which TZS 545.8 billion for General Budget Support, TZS 125.9 billion Basket Fund and 2,005.0 billion for Project Funds. As at 30th June, 2019 actual disbursement from external resources was TZS 2,900.10 billion equivalent to 108 percent of the annual estimates. Out of these, General Budget Support (GBS) was TZS 643.4 billion, equivalent to 115 percent of the annual estimates; Basket funds TZS 661.0 billion, equivalent to 127 percent of the annual estimates.

THE GOVERNMENT OF TANZANIA CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30th JUNE 2019

STATEMENT BY THE HONORABLE MINISTER FOR FINANCE AND PLANNING (Continued)

iii. Government Borrowing

In the financial year 2018/19, the Government planned to borrow TZS 5,793.67 billion from domestic markets through treasury bills and bonds. Out of which, TZS 4,600.00 billion was for rollover of maturing Government securities and TZS 1,193.67 billion being new loans for financing development expenditure. As at 30th June, 2019 the Government raised a total amount of TZS 3,951.04 billion from domestic market which was 68 percent of the target. The amount raised includes TZS 2,828.94 billion for domestic debt rollover and TZS 1,122.1 being new loans for financing development expenditure.

(b) Economic Growth and Stability

The GDP grew by 7.0 percent in 2018 compared to a growth of 7.1 percent in 2017. Sectors that contributed to this economic growth was mainly; construction activities (26.6 percent), agriculture (26.1 percent) transport and storage (12.5 percent), Mining 5.7 percent and Trade and repairs (5.1 percent) among others. The annual inflation rate continued to decline and remained a single digit. The inflation rate was lower at 3.7 percent in June 2019 compared to 3.4 percent in June 2018. Headline and core inflation rates continued to remain at single digit supported by improved food and domestic power supply, and the monetary and fiscal policy stance. The annual GDP value for 2019 was TZS 115.140 billion compared to TZS 107.657 billion in 2018. Further, the GDP per capita in 2018 was TZS 2,275,601 compared to TZS 2,086,168 in 2016 marking an increase of 9.1 percent. In financial year 2018/19, Gross Foreign official reserve was US dollar 4,395.2 million at the end of April 2019, that was sufficient to cover 4.3 months of projected import of goods and services above the country's benchmark of not less than 4 months.

The Government through Bank of Tanzania (BoT) continued to inject liquidity into the economy mainly through purchase of foreign exchange from domestic market and foreign exchange swaps deals. The overnight interbank cash market interest rate averaged at 5.9 percent in April 2019, relatively higher than 1.69 percent in June 2018 and 1.29 percent in April 2018. Likewise, the overall weighted average yields of Treasury Bills increased slightly to an average rate of 8.20 percent in April 2019, from 5.59 percent and 4.04 percent in June and April respectively. Interest rates offered on deposits and those charged on loans by banks were relatively lower than the levels registered in the corresponding period of 2017/18, signifying decline in credit risk, partly associated with continued usage of credit information system during credit appraisal. In particular, overall lending rate averaged at 17.15 percent during the period July 2018 to April 2019, while overall deposits interest rate averaged 7.65 percent.

The Government has continued to implement effective policies and programs to improve people's lives and reduce poverty. The Development of the Poverty Monitoring and Evaluation System, this system has identified all the indicators of poverty, including the outcome of the implementation of Sustainable Development Goals (SDGs) 2030. These indicators have been incorporated in the Local Government Monitoring Database. These indicators include Agriculture, Fishing, Livestock, Environment, Education, Health, Water, Social protection, Employment and Gender; and Launching of the National Microfinance Policy 2017 and its implementation strategy. This policy and its implementation strategy were developed to contribute to the growth of Microfinance sub-sector for economic growth, employment creation and poverty reduction.

These results reflect a strong economy, with nominal GDP growing by 7.2% for the year 2019. With stability on tax revenue collection at same level with prior year, reflecting stability in employment, average wages, domestic consumption and corporate profitability. Average wages was also maintained at an average growth rate of 3.4% and the number of people in employment growing by 3.7%.

THE GOVERNMENT OF TANZANIA CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30th JUNE 2019

STATEMENT BY THE HONORABLE MINISTER FOR FINANCE AND PLANNING (Continued)

(c) Major Projects under Implementation

The priorities for 2018/19 budget and the five years medium term development plan, during the year; the Government among other priorities, implemented major infrastructure investments in strategic areas which have multiplier effects on other sectors of the economy. These investments includes Improvement of infrastructure whereby TZS 1.87 trillion TZS were released for implementation of roads and railways project, Power infrastructure whereby 1.05 trillion were released for construction of Julius Nyerere Hydropower Project, National Carrier Air Tanzania Company Limited (ATCL) in which TZS 262.36 billion were released for procurement of new aircrafts, Higher Education Students Loans and Vocational Education whereby TZS 595.94 billion were released for financing of higher education students Loans, vocational education and training and skills development, for Water supply services TZS 436.13 billion were released for improvement of water supply services in urban and rural areas. Fee free Basic Education whereby TZS 288.48 billion were released for financing outlays of the fee free basic education and Clearance of arrears for which TZS 599.94 billion were released for clearance of accumulated arrears relating to Contractors, Consultants, Employees and Suppliers of goods and services.

(d) Government Debt Management

The Debt Sustainability Analysis (DSA) conducted in December 2018 indicated that, the present value of external debt to GDP was 15.9 percent compared to the threshold of 55 percent; Present value of external debt to Export was 112.4 percent compared to 240 percent threshold; External debt service to export earning was 9.3 percent compared to the threshold of 20 percent; and External debt service to domestic revenue was 15 percent compared to 23 percent threshold. Based on the assessment of debt distress, the Country has capacity to accommodate more debt by borrowing to finance development projects while meeting future financial obligations without sharp adjustment to revenue and expenditure. However, Government priorities on concessional loans and other loans continue to be managed prudently.

Mango

Honorable Dr. Philip I. Mpango (MP) Minister for Finance and Planning

Date: 9th March, 2020

CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30th JUNE 2019

STATEMENT BY THE PAYMASTER GENERAL

The Treasury is responsible for establishing and maintaining a system of internal control designed to provide reasonable assurance that the transactions recorded are within statutory authority and properly record the use of all public financial resources by all the Government Entities. To the best of my knowledge, internal control system has operated adequately throughout the reporting period. The Government financial reports for the year ended 30thJune 2019 have been prepared in accordance with the provisions of the Public Finance Act of 2001 (as revised in 2004), and International Public Sector Accounting Standards (IPSAS) Accrual Basis of Accounting.

The Government continues to promote transparency and accountability in managing public resources and enhancing public finance management reforms by making sure that, all guidelines issued by the International Federation of Accountants (IFAC) and requirements prescribed by National Board of Accountants and Auditors (NBAA) are complied with International Public Sector Accounting Standards (IPSAS). The preparations of the financial statements are in compliance with International Public Sector Accounting Standards (IPSAS) that are relevant to the activities of the Government and its controlled entities and the relevant circumstances of the selected accounting policies.

Purpose of the Financial Statements

The Consolidated Financial Statements of the Government provide a record of the Government's financial performance and its financial position. The Financial statement provides a comparison with the fiscal forecasts in the Economic and Fiscal Updates. The financial statements also provide progress that government has made in implementing its fiscal strategy, as set out in the Short-term Fiscal Intentions and Long-term Fiscal Objectives section of the National Five-Year Development Plan 2016/17 – 2020/21, with the theme to nurture Industrialization for Economic Transformation and Human Development. The main objective is to enhance the pace of progress towards Tanzania Development Vision 2025.

These consolidated financial statements are meant to provide information by:

- a) Presenting the consolidated monetary value of national government (assets, liabilities, revenues and expenditure).
- b) Improving the users' understanding of public sector financial management to the resources entrusted to enhance the achievement of governments' social objectives, responsibility and priorities.
- c) Creating uniformity in the presentation and analysis of public sector financial information to enhance decision making.

Inter Government Entity Transactions

In the consolidated financial statements for the year ended 30thJune 2019 all material balances and transactions between entities included in these consolidated financial statements are eliminated.

Doto M. James
Paymaster General

9th March, 2020 **Date**

CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30th JUNE 2019

MANAGEMENTRESPONSIBILITY ONTHE CONSOLIDATED FINANCIAL STATEMENTS

These Financial Statements have been prepared by the Treasury in accordance with the provisions of the Public Finance Act 2001 (revised 2004) with Finance Act 2015. The Financial Statements comply with Generally Accepted Accounting Practice and with the International Public Sector Accounting Standards (IPSAS).

Section 25(1) of the Public Finance Act 2001 (as revised 2004) requires the Accountant General to prepare and transmit the consolidated financial statements to the Controller and Auditor General in accordance with the requirement of International Public Sector Accounting Standards (IPSAS). The Consolidated Financial Statements for the year ended 30th June 2019 as required by Section 7 (1) of the Public Finance Act 2001 (amended in 2004) and International Public Sector Accounting Standards is hereby presented. The consolidated financial statements for the year ended 30th June 2019 have been prepared to include 545 Public Sector Entities compared to 622Public Sector Entities consolidated in previous year. The reason is due to Embassies and Associates and Joint Venture being consolidated through their parent Ministries or department. Entities consolidated includes; Ministries, Departments, Agencies, Regional Secretariats, Local Governments Authorities and other Public Sector Entities, and submitted for audit to ensure compliance with IPSAS 35 Consolidated Financial Statements para 3 and 5.

The Treasury is responsible for establishing and maintaining a system of internal control designed to provide reasonable assurance that the transactions recorded are within statutory authority, and properly record the use of all public financial resources by the Government Reporting Entities. Selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances which provide reasonable assurance that the transactions recorded are within statutory authority, and properly record the use of all public financial resources by the Government.

Nothing has come to the attention of the Management to indicate that the Government will not remain a going concern for the next twelve months from the date of this Consolidated Statements. To the best of the Management knowledge, the system of internal control has operated adequately throughout the reporting period and that the records and underlying accounts provide a reasonable basis for the preparation of the Financial Statements for the year ended 30th June 2019.

Procurement of goods, works and consultancy and non-consultancy service to the extent that they are reflected in these financial statements have been done in accordance with the Public Procurement Act, 2011 and its Regulations of 2013.

Francis Mwakapalila Accountant General 9thMarch, 2020

Date

The Management accepts responsibility for the integrity of these financial statements, the information they contain such that the consolidated financial statements present fairly in all material respects, the financial position of the Government as at 30th June, 2019 and its financial performance and cash flows for the year then ended in accordance with International Public Sector Accounting Standards.

Doto M. James
Paymaster General

9thMarch, 2020

Date

CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30th JUNE 2019

DECLARATION OF THE CHIEF ACCOUNTANT ON CONSOLIDATED FINANCIAL STATEMENTS

The National Board of Accountants and Auditors (NBAA) according to the power conferred to it under the Auditors and Accountants (Registration) Act. No. 33 of 1972, as amended by Act No. 2 of 1995, requires financial statements to be accompanied with a declaration issued by the Head of Finance/Accounting responsible for the preparation of financial statements of the entity concerned.

It is my duty as a Certified Professional Accountant to assist the Management to discharge the responsibility of preparing financial statements that reflects the true and fair view of the Government position and performance in accordance with International Public Sector Accounting Standards and statutory financial reporting requirements. Full legal responsibility for the preparation of financial statements rests with the Management as stated in the Management Responsibility statement on an earlier page.

I, CPA Dr. Elizeus KALUGENDO John being the Chief Accountant of Consolidation Unit in the Accountant General's Department hereby acknowledge my responsibility of ensuring that consolidated financial statements for the year ended 30th June, 2019 have been prepared in compliance with International Public Sector Accounting Standards (IPSAS) and the Public Finance Act 2001 (revised 2004) requirements with all amendments through annual Finance Act's.

I thus confirm that these Consolidated Financial Statements present fairly in all material respects, the Financial Position of the Government as at 30th June,2019, and its Financial Performance and Cash Flows for the year end have been prepared based on properly maintained financial records.

Signed by:

Position: Ag. Chief Accountant Consolidation

NBAA Membership No: ACPA 3775

Date: 9th March, 2020

Commentary on the Consolidated Financial Statements

THE GOVERNMENT OF TANZANIA CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30TH JUNE 2019

COMMENTARY ON THE FINANCIAL STATEMENTS

1. INTRODUCTION

The Consolidated Financial Statements of the Government of United Republic of Tanzania for the financial year ended 30th June, 2019 comprises Statement of financial performance, Statement of financial position, statement of changes in net assets/equity, Statement of cash flows, Statement of comparison of budget and actual amount spent and notes to the financial statements. Further, additional details have been included in order to promote ease of understanding and comparison of data in line with the requirement of International Public Sector Accounting Standards (IPSAS), as well as other schedules and summary statements.

2. FISCAL OUTLOOK

Tanzania economy once again, emerged among the fastest growing economies in the East African Region and in the World; and continued to be an attractive investment destination for Foreign Direct Investments (FDI) in the region. Supported with its growing middle-class population which mostly lives in urban and semi-urban areas, plenteous natural resources and political stability; Tanzania economy continued to grow and create more room for investments as business focus has been placed on promoting industrial led economy. Tanzania's Gross Domestic Product (GDP) grew from 7.0% in 2018 to 7.2% in 2019; in 2019 the GDP per capita stood at TZS 2,507,981 compared to TZS 2,402,139.6 in the prior year. The country officially joined a group of lower Middle income Countries (MIC) in 2017 when its per capita GDP crossed the World Bank benchmark of TZS 2,300,900.

Major contributing sectors to these economic successes include; Agricultural, telecommunication, transport, manufacturing, construction, mining, trade and financial intermediation. The Country's macroeconomic performance is expected to continue strengthening due to up-running investment on infrastructures, industries, renewable energy, favorable weather condition which in return promotes agriculture, expected stability on oil prices, political stability and tightened monetary policies. During the financial year under report, the country also successfully maintained the annual headline under single digit at 3.7 percent in June 2019. In the EAC region, headline inflation rose to an average of 4.2 percent in 2019 from 3.26 percent in 2018.

3. OVERSIGHT BODY

The Parliament of Tanzania is mandated to execute oversight role over the Government financial management; to this effect the Parliament has three dedicated Parliamentary committees each specialized in the oversight of a particular section of public sector. The three Parliamentary oversight committees and their areas of prerogative are as follows:

- a) The Public Accounts Committee (PAC) responsible for the oversight of the Central Government i.e. Ministries, Independent Government Departments and Executive Agencies;
- b) The Local Government Authorities Accounts Committee (LAAC) which is responsible for the oversight of the Local Government Authorities; and

CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30th JUNE 2019

COMMENTARY ON THE FINANCIAL STATEMENTS (Continued)

3. **OVERSIGHT BODY (Continued)**

The Committees are established under the Constitution of the United Republic of Tanzania 1977 Article 96(1) & (2) and the Parliamentary Standing Orders (2013), Order No.118 (1) and Addendum No 8 of the orders.

The members of the Public Accounts Committee (PAC) as at 30th June, 2019 were as follows:

No.	Name	Position	Constituency / Special Seats
	Hon. Naghenjwa Livingstone		
1	Kaboyoka	Chairperson	Constituency – Same East
		Vice	Constituency – Sumbawanga
2	Hon. Aeshi Khalfan Hilary	Chairperson	Town

4. BUDGET APPROVAL AND ASSUMPTIONS

The budget of the Government of United Republic of Tanzania was prepared on cash basis by function classification. The budget for the fiscal year ended on June 30, 2019 was approved by the Parliament of the United Republic of Tanzania in June 2018 and included all activities within the Government of the United Republic of Tanzania. The theme of the 2018/19 Budget was "to build an industrial economy that will stimulate employment and sustainable social welfare".

In order to attain the stated performance benchmarks, the following assumptions were expected to be observed and maintained during the financial year;

CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30th JUNE 2019

COMMENTARY ON THE FINANCIAL STATEMENTS (Continued)

4. BUDGET APPROVAL AND ASSUMPTIONS (Continued)

- a) Peace, unity and political stability within and across the region;
- b) Stability and sustainability in macroeconomic and social economic gains;
- c) Stability in global economy;
- d) Stability in the world market oil prices;
- e) Favorable weather condition in a country and neighboring countries;
- f) Favorable relations with neighbors, region and international; and
- g) Supportive laws and regulations for investors.

The Government started the financial year 2018/19 by setting out key strategies and goals for execution during the year. The main goals for 2018/19 were poverty alleviation leading to transforming the country into an industrial economy towards a Middle-Income Country. These goals were aligned with; Tanzania Development Vision 2025, National Five Years Development Plan (2016/17 – 2020/21), the African Agenda (2063), the Sustainable Development Goals (2030) and the ruling party Manifesto (2015 – 2020).

To achieve poverty alleviation and transformation of the Country into an industrial led economy, the Government adopted the following guiding policies and measures as its performance benchmark for the financial year 2018/19;-

- a) Attain GDP growth of 7.2 percent in 2018;
- b) Continue to contain inflation rate at a single digit;
- c) Projection of Domestic revenue at 15.8 percent of GDP in 2018/19;
- d) The budget deficit to be 3.2 percent of GDP in 2018/19; and
- e) Official Foreign Reserve sufficient to pay for four months of imports.

5. PRIORITY SECTORS

The top priority sectors in terms of budgetary allocation for the financial year ended on 30th June, 2019 were Education, Transport, Health, Energy and Social protection. These sectors were purposely selected due to their multiplier effects and in total a sum of TZS 15,730.60 billion were allocated to these sectors which is equivalent to 48.4% of the approved budget for the year.

i. **Education:** In the Financial Year 2018/19 a total of TZS 4,641.5 billion was allocated for education sector. Activities implemented include, among others: Implementation of Fee Free Basic Education; Implementation of education development projects through various programs; and improving teaching and learning environment through rehabilitation of education supportive infrastructure. The government facilitated the Construction of basic education infrastructure in 504 schools (219 Primary and 285 secondary) at Tanzania mainland, infrastructure include 938 classrooms, 210 dormitories, 2,141 toilets, 39 houses, water services in 10 schools and 76 dining halls;

Moreover the government has continued with the construction and rehabilitation of Higher Education Institutions, these include, Completing construction of lecture theatre at Mwalimu Nyerere Memorial Academy (Kivukoni Campus) with the capacity to occupy 302 students; the first library with international status at University of Dar es salaam with capacity to occupy 2,100 students.

ii. **Transport:** In promoting economic growth in the country, the Government continued to focus on investing in supportive economic infrastructure such as roads, railway, ports and airports, in order to implement the objective of strengthening infrastructure in transport sector

CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30th JUNE 2019

COMMENTARY ON THE FINANCIAL STATEMENTS (Continued)

5. PRIORITY SECTORS (Continued)

In the financial year 2018/19, the Government allocated a total of TZS 4,524.2 billion for the sector. On the rehabilitation to gravel standard, 840.95 km were rehabilitated against the annual plan of 1,084.12 km (which is 77.57%). Equally the construction of 30 bridges for regional roads was achieved at 56%.

By the end of June 2019, construction of new Standard Gauge Railway Line (SGR) from Dar es Salaam to Morogoro (300km) was implemented by 70% and its completion was expected in May, 2020. Implementation of other portion of the SGR for Morogoro to Makutupora and feasibility study for Makutupora to Mwanza and Isaka were at various stages of implementation.

Further the government continued with construction works of airport projects. Among the works undertaken were construction of the new Geita Airport and Julius Nyerere International Airport Terminal III building which reached 78% and 99% of completion respectively. Simultaneously, the planned activities for rehabilitation and upgrading of airports were implemented as follows; construction of the Aviation control Tower and cargo building which attained 93% of completion, upgrading of runway and other infrastructure at Mwanza Airport which attained 95% of completion. Also detail design for construction work of the new Msalato Airport reached 98%, and construction/rehabilitation at Shinyanga, Kigoma, Tabora, Mtwara, Songea and Musoma airports were in progress.

Moreover, the Government completed construction of the new ferry for Kigongo-Busisi (MV Mwanza) and the construction of waiting lounge, office and fence for Lindi- Kitunda crossing. Additionally, phase one expansion of the terminal building at Kigamboni ferry was completed;

iii. **Health:** In the Financial Year 2018/19, the Government allocated TZS 1,731.8 billion for health sector in order to ensure better and quality health services countrywide. The Government through Ministry of Health, Community Development, Gender, Elderly and Children has improved provision of HIV/AIDS testing. The Government of Tanzania has continued with the provision of identification and treatment of Tuberculosis (TB) and Leprosy cases in 3,911 facilities.

In controlling the transmission of Malaria, The Government has distributed 2,565,286 Long Lasting Insecticide Nets (LLIN) whereby 1,039,864 LLINs were issued to households through a mass campaign; 1.152,902 LLINs were issued through Primary School Pupils and 372,520 LLINs were issued through reproductive and child health. In addition 45,925 house structures were sprayed with insecticides.

iv. **Energy:** In the financial year 2018/19 the Government allocated a total of TZS 1,702.3 billion to finance the energy sectors; these includes: the Julius Nyerere hydropower project contract which was signed on 12 December, 2018 and its implementation is ongoing; Kinyerezi II combined cycle power plant project which is complete and now contributing 240 MW to the National Grid system; and Kinyerezi I power project Extension 185 MW project.

Other projects implemented includes, REA Turnkey Phase III programme where by 322 villages were electrified; Construction of 220 Kv transmission line from Makambako to Songea was completed, whereby two regions Njombe and Ruvuma were connected to the National

CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30th JUNE 2019

COMMENTARY ON THE FINANCIAL STATEMENTS (Continued)

5. PRIORITY SECTORS (Continued)

Grid; Production of Natural gas which increased from 175 million standard cubic feet per day in 2017/2018 to 195 million standard cubic feet per day in 2018/2019.

v. **Water:** In the financial year 2018/19, the Government aimed at improving clean and safe water supply; Environment sanitation at rural and urban areas; Management and development of water resources; improving provision of irrigation services and crosscutting issues. The Government has allocated a total of TZS 859.2 billion for water sector;

The government implemented water projects all over the country. Following completion of some of the projects between July 2018 and June 2019 water supply in urban centers has increased and availability of water services for Regional headquarters is now at an average of 80%. Rural areas have average of 64.8% supply of safe and clean water.

vi. **Agriculture, Livestock and Fisheries:** The Agriculture, Livestock and Fisheries sectors have continued to be the leading sectors in generating employment opportunities especially in rural areas. In the financial year 2018/19, the Government allocated a total of TZS 606.8 billion for the sector:

Agriculture sector continue to show indicators of growth in 2018/2019 as it was recorded in the previous season. The revised national accounts with base year 2015 revealed that, in 2017 the growth rate of 6.0% was achieved in the agricultural sector compared to the growth rate of 4.8% which was observed in 2016. Also, the Food Self-sufficient ratio (FSSR) in 2018 was 124% compared to 123% of 2017 indicating that the country was food secure.

vii. **Industry, Trade and Investment:** In the financial year 2018/19, the Government allocated a total of TZS 143.3 billion for Industry, Trade and Investment. The growth rate in the industrial sector using the year 2015 price indices was 8.3% in 2018 compared to 8.2% in 2017 and contribution to GDP was 8.05% in 2018 compared to 7.7% in 2017.

Trade sector contribution to GDP was 9.1% in 2018 as it was in the year 2017. Moreover, there was an increase in exports to both East Africa Community and the Southern Africa Development Community (SADC) from USD 1,478 million in 2017 to USD 1,604 million in 2018.

6. RESTATEMENT OF FINANCIAL RESULTS

The Government has restated its previously reported consolidated financial statements as at and for the year ended 30th June, 2018 and all related disclosures. The restatement of the consolidated financial statements followed an internal review of the Government's consolidated financial statements and accounting records that was undertaken in preparation for data migration to new internally developed accounting software (the Government Accounting Consolidation System – GACS).

That review identified overstatement and understatement of the consolidated Taxpayers Fund, consolidated assets, errors in coding and miss posting of entries to wrong account heads. The effects of the restatement, including the correction of all errors identified by management, are reflected in the Government's consolidated financial statements and its accompanying notes.

CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30th JUNE 2019

COMMENTARY ON THE FINANCIAL STATEMENTS (Continued)

7. REVENUE

Revenue is recognized on accrual basis whereby the collection is recognized when earned rather than when cash is received. During the year under review the Government revenue were TZS 31,106.3 billion compared to TZS 30,763.4 billion in the financial year 2017/18, equivalent to an increase of 1 percent.

Policy and Strategies to Increase Revenue

During the financial year 2018/19 the Government deployed the below administrative measures that simplified and enabled the Government to collect sufficient domestic revenue for implementing its annual budget:

- a) Implementation of the Treasury Single Account for collection and payment of Government fund aiming at reducing operation costs and ensure effective control and management of public funds;
- b) Deposit of all fees and levies imposed on sale of agriculture produce by Crop Boards into the Consolidated Fund to ensure effective management of revenues;
- c) Strengthening management of existing sources by intensifying the use of electronic collection system;
- d) Widening tax base by formalization of the informal sector;
- e) Creating conducive environment to attract business and investment including: Improvement of supportive infrastructure, Tax incentives, Policy stability and predictability, Land accessibility and, well structured legal and regulatory frameworks;
- f) Strengthened cooperation with Development Partners.

Grants and Concessional Loans:

As at 30th June, 2019 the Government received grants and concessional loans from its Development Partners amounting to TZS 8,061.63 billion equivalent to 70 percent of the annual estimates. Out of these, General Budget Support (GBS) was TZS 643.4 billion, equivalent to 115 percent of the annual estimates; Basket funds TZS 661.03 billion, equivalent to 127 percent of the annual estimates.

Tax Revenue

Taxes are recognized in compliance with IPSAS 23 Revenue from Non-Exchange Transaction when taxable event occur.

Non-Tax Revenue:

Non-tax revenue Includes External assistance (grants and aids), finance income, fees, fines, penalties and licenses, revenue from exchange transaction, **Social contributions**, other revenue, Fair value, gains on equity investments and Fair value grants on investments properties.

Total Non-Tax revenue earned during the period was TZS 10,897.41 Billion. The Government managed to maintain non tax collection at the level similar to prior year due to Government efforts in implementing effective compliance strategies by Ministries and Government agencies as to ensure that all institutions collect non tax revenue through GePG. Collections from LGAs own source for 2018/19 was 659.1 billion TZS equivalent to 90 percent of the target of collecting TZS. 735.6 billion.

CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30th JUNE 2019

COMMENTARY ON THE FINANCIAL STATEMENTS (Continued)

8. EXPENDITURE

Expenditure is recognized on accrual basis that is recognized when incurred rather than when cash is paid while on other hand budget is on cash basis. The Government adopted a number of Policies and Measures on Expenditure Management for the financial year 2018/19 budget which comprised of the following:

- a) Ensuring that budget deficit does not exceed 3.2 percent of GDP;
- b) Ensuring discipline in expending public fund and continue to reduce unnecessary expenditure;
- c) Control accumulation of arrears; and

Allocation of funds to priority and productivity areas in order to: Stimulate growth in agriculture and industries, widen employment creation opportunities, improve economic infrastructure and; strengthen provision of quality social services.

The overall Government expenses for the financial year 2018/19 were divided into various classes including wages, salaries and employee's benefits, Social benefits, Supplies and Consumables, Routine repairs and maintenance, Depreciation, Impairment of Property, Plant and Equipment (PPE) Investment Property and Intangible Assets and other expenses. Total expenses for the financial year ended 30th June, 2019 was TZS 32,261.29 billion higher than the last year expenses of TZS 31,642.03 billion equivalents to 2%. Total expenditure increase is due to government commitment in development projects.

9. ASSETS

The total assets at the end of the year 2018/19 were TZS 117,832.46 billion compared to TZS 110,750.56 billion in the prior year. The value of assets of the Government continued to increase due to completion of new projects and valuation of assets in various reporting entities in order to establish deemed cost for assets which were acquired at a low or nominal value.

a) Investments in Equity, Associates and Joint Venture

The Government closed the financial year 2019 with investments in equity of TZS 682.87 billion, Investment in Associates and Joint venture of TZS 1,044.38 Billion. These figures represent slight movement compared to figures in 2017/18 which were investments in equity of TZS 837.12 billion, Investment in Associates and Joint venture of TZS 1,035.76.

b) Investment Property

The total Investment property at the end of the year 2018/19 was TZS 7,326.3 Billion compared to TZS 7,228.2 Billion in the previous year. The value of Investment property increased due to new investment property acquired during the year.

c) Other Government Investments

Other Governments Investments in the financial year 2018/19 includes; Foreign Currencies Marketable Securities (TZS 5,065.71 billion: 2017/18 TZS 6,512.42 billion) and Government Securities (TZS 1,257.65 billion: 2017/18 TZS 1,361.73 billion).

CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30th JUNE 2019

COMMENTARY ON THE FINANCIAL STATEMENTS (Continued)

d) Property, Plant and Equipment

Property, Plant and Equipment principally comprises Operational Buildings, Land, Plant, Vehicles, Roads, Bridges, Machinery, Ships, Aircraft and Furniture and Equipment according to IPSAS 17. Net property, plant and equipment at the end of the year 2018/2019 were TZS 71,330.23 Billion compared to TZS 67,379.92 Billion in the prior year. The value of Property Plant and Equipment in 2018/19 is higher by 3,950.31 Billion which is due to new construction and acquisition of PPE during the year.

e) Biological Assets

The Government's biological/agriculture assets as at 30th June 2019 was TZS 247.88 billion while biological assets for the previous year were TZS 124.37 Billion the increase was due to favourable weather conditions, improved conservation strategies and public awareness on reforestation and on importance of other biological assets.

f) Intangible Assets

The Government's intangible assets as at 30th June 2019 were TZS 394.28 Billion while Intangible assets for the previous year were TZS 356.50 Billion the increase was due to acquisition of new assets. The increase was largely attributed to acquisition and internally developed software. These soft wares include public finance management software's.

g) Cash and Cash Equivalent

These are cash balances at the end of the financial year includes bank balances of recurrent, development and deposit account during the financial year the cash and cash equivalents were TZS 6,511.97 Billion compared to TZS 7,678.19 Billion of the previous year 2017/18. The decrease is attributed to decrease in Bank placements with Government Banks.

h) Inventories

The major components of inventories were finished goods and building material and equipment. The Government inventories during the year 2018/19 was TZS 2,144.77 Billion compared to previous year was TZS 1,363.45 Billion.

i) Receivables

Government receivable includes Imprest receivable and other receivables. The Government receivable during the year 2018/19 was TZS 9,005.38 billion while the previous year receivables were TZS 6,484.12 billion.

9. LIABILITIES

Total liabilities as at 30th June, 2019 were TZS 98,218.02 Billion compared to total liabilities of TZS 98,560.96 billion in 2017/18 which comprises of Public debt of TZS 53,104 billion and TZS 50,926 billion respectively.

Debt Position

Public Debt balance for the financial year ended 30th June 2019 was TZS 53,104.88 billion Compared to TZS 50,926.50 billion in the prior year. The public debt comprises of external debt balance for the current year of TZS 38,241.48 billion and domestic debt of TZS 14,863.40 Billion Compared to TZS 35,968.86 billion external debt and TZS 9,990.57 Billion domestic debt. The increase in debt was due to the following reasons:

- i. New disbursements;
- ii. New borrowing:
- iii. Different exchange rates used to translate the debt outstanding at the end of respective financial year.

CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30TH JUNE 2019

COMMENTARY ON THE FINANCIAL STATEMENTS (Continued)

9. LIABILITIES (Continued)

The total Public Debt Outstanding as at 30th June, 2019 has also been categorized into Short term and Long-term loans as well. Out of total outstanding Public debt of TZS 53,104.88 Billion Short term loans amounted to TZS 7,440.89 Billion compared to TZS 8,713.09 which was reported last financial year while balance of TZS 45,663.98 Billion was long term loans compared with TZS 42,213.41 Billion which was reported in last financial year.

In the financial year 2018/19 the government continued to manage public debt guided by the Loans, Grant and Guarantees Act Cap 134 to ensure sustainability. The Debt Sustainability Analysis (DSA) which was conducted in December 2018 indicated that the National Debt remains sustainable in short to medium and long term.

10. CONCLUSION

The Government of the United Republic of Tanzania is committed to ensure that financial management is improved to enhance transparency and accountability of the available resources for the betterment of Citizens. To accomplish its mission of promoting service deliverance to its citizen it will continue to strengthen internal control system over assets, payroll and expenditure by minimizing and directing all resources to activities that eventually serve the general community. In so doing, the Government continued implementing International Public Sector Accounting Standards (IPSAS) in preparation of its financial statements in order to increase transparency in public expenditure, accountability and management of Public Resources.

These financial statements should be read in conjunction with the underlying notes and schedules for better understanding.

Francis Mwakapalila

Notes to the Financial Statements

THE GOVERNMENT OF TANZANIA NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

1. GENERAL INFORMATION

To enhance accountability and transparence, the Government of the United Republic of Tanzania require all Public Sector Entities (PSE) to keep proper books of accounts that complies with the Generally Accepted Accounting Principles, Public Finance Act of 2001 (revised 2004) with a number of Finance Acts that amended some sections and the International Public Sector Accounting Standards (IPSAS), other Guidelines and Directives as may be issued by the Paymaster General.

Sectorial classification of Public Sector in Tanzania is referred to General Government (Central Government, Regional Secretariats, Social Security Funds and Local Government Authorities) and Public Corporations i.e. financial public corporations and non-financial public corporations. This forms part of national economy providing basic goods or services that is either not, or cannot be, provided by the private sector. The portion of an economic system that is controlled by national, state or Regional, Executive Agencies and Commissions, State owned Enterprises, Parastatals and other Government Departments and local governments.

The General Government sector consists of all government units and Non-Profit Institutions (NPI) that are controlled by government units, while the public corporation subsector consists of all corporations controlled by government units or other public corporations. General Government also includes public enterprises, legally constituted as corporations, but that do not satisfy the criteria to be treated as corporations.

2. STATEMENT OF COMPLIANCE AND BASIS OF PREPARATION

These consolidated financial statements of the Government reporting entity comply with Generally Accepted Accounting Practice as defined in the Public Finance Act 2001 (revised 2004) Section 25(1) and have been prepared in accordance with International Public Sector Accounting Standards (IPSAS). The financial statements are presented in TZS, which is the functional and reporting currency of the Government and all values are rounded to the nearest thousand (TZS 000).

The Government reporting entity is a public benefit entity. Public benefit entities are reporting entities whose primary objective is to provide goods or services for community or social benefit and where any equity has been provided with a view to supporting that primary objective rather than for a financial return to equity holders. The measurement base applied is historic cost modified by the revaluation of property, plant and equipment and investment properties to determine deemed cost for initial recognition. These financial statements have been prepared on a going concern basis.

3. SCOPE OF CONSOLIDATION

As per requirements of IPSAS 35 Consolidated Financial Statements, paragraph 5 gives the controlling entity mandate of consolidating all the controlled entities, and exempts some of the controlled entities which are controlling entities in nature to prepare consolidated financial statements. IPSAS 35 paragraph 40 gives elaboration on the elimination of balances and transactions between entities within the economic entity for reporting periods, all inter-entity transactions, balances and unrealized gains and losses on transactions between entities of the Government are eliminated in full in the accounts reported for the year ending 30 June 2019.

4. AUTHORIZATION DATE

The consolidated financial statements were authorized for issue in accordance to Article 143(4) of the Constitution of the United Republic of Tanzania, 1977(revised in 2000).

Doto M. James
Paymaster General

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued) FOR THE YEAR ENDED 30 JUNE 2019

5. REPORTING ENTITY

The reporting entities are categorized as per the Institutional table Published in the Ministry's web site to mean Central Budgetary Government, Extra Budgetary and Public Corporations which are grouped as follows:

General Government Sector (GGS)

Budgetary

- Ministries and Independent Offices within respective Ministries, including Tanzania Missions Abroad (under the Ministry of Foreign Affairs and International Cooperation)
- o Regions
- Some Commissions

Extra Budgetary

- Hospitals
- Academic Institutions
- Agencies
- Authorities
- Professional Boards
- Food/Crop Boards
- Centres
- Entities
- Institutes
- Other Extra Budgetary Entities (Bureaus, Commissions, Funds, Departments/Units, and Other Boards)

Local Government Authorities

Social Security Funds

Public Corporations

Public Financial Corporations (PFC)

o Banks, Insurance and Microfinance

Public Non-Financial Corporations (PNFC)

- Water Authorities
- Other Public Non-Financial Corporations (PNFC)

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued) FOR THE YEAR ENDED 30 JUNE 2019

6. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied in all years, unless otherwise stated.

a) Consolidation

Controlled entities

The controlled entities are all those entities which the Government has the power to govern the financial and operating policies. The controlled entities are fully consolidated from the date on which control is transferred to the controlling. They are de-consolidated from the date that control ceases. Inter- group transactions, balances and unrealized gains and losses on transactions between entities of the Government are eliminated in full. The accounting policies of the controlled entities are consistent with the policies adopted by the Government.

b) Reporting Period

The reporting period for these financial statements is the financial year of the Government which runs from 01st July 2018 to 30th June 2019.

c) Foreign currency translation

Functional and presentation currency

Items included in the financial statements of the Government are measured using the currency of the primary economic environment in which the Government operates ("the functional currency"). The financial statements are presented in Tanzanian TZS (TZS), which is the Government's functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into Tanzanian TZS using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are in the statement of financial performance.

d) Cash and cash equivalents

Cash and bank balances in the statement of financial position comprise cash at banks and in hand and short-term deposits with an original maturity of three months or less, and is measured at amortized cost. For the purpose of the cash flow statement, cash and cash equivalents consist of cash and cash equivalents as defined above, net of outstanding bank overdrafts.

e) Provisions

During the financial year, the Government has a present obligation (legal or constructive) as a result of past events, these events has a great probability that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Where the Government expects some or all of a provision to be reimbursed, for example under an insurance contract, the reimbursement is as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in surplus/deficit net of any reimbursement. If the effect of the time value of money is material, provisions are discounted using a current pre tax rate that reflects, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is as a finance cost.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued) FOR THE YEAR ENDED 30 JUNE 2019

6. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

f) Related Party Transactions

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial and operating decisions. They include relationship with subsidiaries, associates, joint Venture and key management personnel. Key management personnel include the President, Vice President, Prime Minister, Ministers and Deputy Ministers, Permanent Secretaries and other Accounting Officers, Board Members, Senior Management Group, Key Advisors and Members of Parliament. The Government's transactions and arrangements are with related parties and the effect of these on the basis determined between the parties is reflected in these financial statements.

g) Employee Benefits

Employee Benefits include salaries, pensions and other related employment costs. The Government of the United Republic of Tanzania operates defined contribution plans, where contributions are made to Public Service Social Security Fund (PSSSF), National Social Security Fund (NSSF) and Workers Compensation Fund (WCF) where both employer and employee contribute to the funds.

Additionally, the Government of the United Republic of Tanzania operates an insured (health benefit) plan where contributions are paid to the National Health Insurance Fund (NHIF). Both the employee and employer contribute 3% of gross salary to NHIF, while Fire and Rescue Force, Police Force, Prison Services and Immigration employer's contribution is 6.25% of gross salary and no contribution from employees.

Employer's portion of social security contributions and health benefits plan contributions are made directly to the respective funds by the Ministry of Finance and Planning. Moreover, there is severance allowance which is also a defined plan. The plan is unfunded but the participants of this plan are operational service staff. Severance allowance is computed based on employee's final salary and number of years in employment.

h) Leases

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

The Government as lessor

Rental income from operating leases is recognized on a straight-line basis over the term of the relevant lease unless another systematic basis is more representative of the time pattern in which use benefit derived from the leased asset is diminished. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and on a straight-line basis over the lease term.

The Government as lessee

Rentals payable under operating leases are charged as an expense to the statement of financial performance on a straight-line basis over the term of the relevant lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed. Contingent rentals arising under operating leases are recognized as an expense in the period in which they are incurred.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued) FOR THE YEAR ENDED 30 JUNE 2019

6. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

i) Revenue

Revenue represents amount earned not necessarily received during the financial year, and comprises tax, non-tax revenue, financing income and external assistance.

Tax

Tax revenue is recognised to the extent that it is probable that the economic benefits will flow to the Authority and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received. The Authority assesses its revenue arrangements against specific criteria in order to determine if it is acting as principal or agent. The following specific recognition criteria must also be met before revenue is recognised:

No.	Tax	Taxable Event
i.	 Airport and Port Departure Charge Pay-As-You-Earn (PAYE) Payroll/Skills and Development Levy Stamp Duty Other than Stamp Duty on Receipt Withholding Tax – Others 	Recognised as revenue when funds are received by TRA. Additional revenues, identified after review of taxpayer returns, are recognised upon adjusted/amended assessment.
ii.	Assessed Income Tax – Individual Corporate Tax	Measured from amounts assessed or reassessed, and from estimates of amounts not yet assessed or reassessed based on cash receipts that relates to the fiscal year ended 30 June. Annual revenues also include adjustments between the estimated revenues on previous year and actual amounts, as well as revenues from reassessments relating to prior years. Revenues do not include estimates on unreported taxes, or the impact of future reassessment that cannot yet be reliably measured.
iii.	 ♣ Bed Night Levy ♣ Customs – Agency Fees ♣ Customs – Auction Sales ♣ Customs – Transit Fees ♣ Customs – Warehouse Rent ♣ Customs – Printing and Publications ♣ Presumptive Income Tax 	Recognised when it is probable that future economic benefits will flow to the Authority and the amount can be measured reliably.
iv.	Driving License FeesDriving Test Fees	Recognised on assessment. This is when payment notice is issued to the licensee.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued) FOR THE YEAR ENDED 30 JUNE 2019

6. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

i) Revenue (Continued)

External Assistance

External assistance received by Government forms part of grants. External assistance received by all Government entities is accounted for centrally by the Ministry responsible for Finance and Planning which is the principal recipient on behalf of the Government.

Social Contribution

Employers' and employees' contributions are accounted for on accrual basis. Contribution income is to the extent and the amount of contribution established based on salary actually paid by member employer to member employees.

Transfers

These are funds/assets received or transferred to or from the other Government entities, agencies or other third parties.

Non-Tax Revenue

All revenue collected by the Government which is not related to the tax activities; these include fees, fines and penalties collected during the financial year.

Investment income

Government receives revenue in forms of dividend or other earnings, and such income is recognized as revenue in the period in which is declared.

Rental Income

Rental income from investment properties is recognized on a straight-line basis over the term of the relevant lease.

Gross premiums

Gross recurring premiums on life and investment contracts with discretionary participation features (DPF) are recognized as revenue when payable by the policyholder. For single premium business, revenue is recognized on the date on which the policy is effective. Gross general insurance written premiums comprise the total premiums receivable for the whole period of cover provided by contracts entered into during the accounting period. They are recognized on the date on which the policy commences. Premiums include any adjustments arising in the accounting period for premiums receivable in respect of business written in prior accounting periods. Rebates that form part of the premium rate, such as no-claim rebates, are deducted from the gross premium; others are as an expense. Premium collected by intermediaries but not yet received, is assessed based on estimates from underwriting or past experience and are included in premiums written.

Unearned premiums are those proportions of premiums written in a year that relate to periods of risk after the reporting date. Unearned premiums are calculated on a daily pro rata basis. The proportion attributable to subsequent periods is deferred as a provision for unearned premiums.

i) Expenses

Under accrual basis expenditure is recorded in the accounts when it is incurred and not necessarily when it is paid for.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued) FOR THE YEAR ENDED 30 JUNE 2019

6. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

k) Inventories

Inventories held for sale are stated at the lower of cost or net realizable value. Inventories held for distribution at no charge or for a nominal charge are stated at the lower of cost and current replacement cost. Costs incurred in bringing each product to its present location and condition, are accounted for as follows:

- Raw materials purchase cost on first in first out basis.
- Stationeries and other consumables cost is determined on first in first out basis.
- Finished goods and work in progress cost of direct materials and labour and a proportion of manufacturing overheads based on normal capacity but excluding borrowing costs.

Net realizable value is the estimated selling price in the ordinary course of business, less applicable variable selling expenses. Current replacement cost is the cost the entity would incur to acquire the asset on the reporting date.

I) Agriculture assets

Agriculture assets are measured at their fair value less estimated point-of-sale costs. These assets are re-valued at their net market values each year at the reporting date.

Net market value is calculated as the difference between the net present value of cash flows expected to be generated by the plantation and the fair value of the land on which the assets are grown.

Increase/decrease in the net market value from the previous valuation is recognized as revenue/expense in the statement of financial performance.

Periodic changes resulting from growth, prices, discount rate, costs and other premise changes are included in the consolidated statement of financial performance.

m) Losses

The National Assembly may, by resolution, authorize the Minister responsible for Finance to the extent specified in the resolution to abandon and remit any claims by or on behalf of the Government or any service thereof and to write off losses of moneys or stores belonging to the Government or provided for the public service.

The Minister responsible for Finance may by writing under his hand delegate to any officer any powers which he is authorized to exercise by resolution of the National Assembly.

Losses are proposed to be disclosed in the statement of Losses of Public Money, stores written off and claims abandoned.

n) Interest bearing loans and borrowings

All loans and borrowings are initially recognized at the fair value of the consideration received less directly attributable transaction costs.

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the effective interest method. Gains and losses are recognized in surplus/deficit when the liabilities are derecognized as well as through the amortization process.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued) FOR THE YEAR ENDED 30 JUNE 2019

6. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

o) Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective assets. All other borrowing costs are expensed in the period they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

p) Intangible assets

Intangible assets (consisting of computer software) acquired are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and any accumulated impairment losses. Internally generated intangible assets are not capitalized and expenditure is charged against surplus/deficit in the year in which the expenditure is incurred.

The useful lives of intangible assets are assessed to be finite. Intangible assets with finite lives are amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The expected useful life is approximately 5 years.

The amortization period and the amortization method for an intangible asset are reviewed at least at each financial year-end. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset is accounted for by changing the amortization period or method, as appropriate, and treated as changes in accounting estimates. The amortization expense on intangible assets is recognized in the statement of financial performance. Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in surplus/deficit when the asset is derecognized.

a) Right of Use Asset

The right-of-use asset is a lessee's right to use an asset over the life of a lease. The asset is calculated as the initial amount of the lease liability, plus any lease payments made to the lessor before the lease commencement date, plus any initial direct costs incurred, minus any lease incentives received. The amortization period for the right-of-use asset is from the lease commencement date to the earlier of the end of the lease term or the end of the useful life of the asset. An exception is when it is reasonably certain that the lessee will exercise an option to purchase the asset, in which case the amortization period is through the end of the asset's useful life. If a right-of-use asset is determined to be impaired, the impairment is immediately recorded, thereby reducing the carrying amount of the asset. Its subsequent measurement is calculated as the carrying amount immediately after the impairment transaction, minus any subsequent accumulated amortization. At the termination of a lease, the right-of-use asset and associated lease liability are removed from the books of the lessee. The difference between the two amounts is accounted for as a profit or loss at that time.

r) Investments and other financial assets

Financial assets within the scope of IPSAS 29 are classified as financial assets at fair value through profit or loss, loans and receivables, held-to-maturity investments, or available-for-sale financial assets, as appropriate. When financial assets are recognized initially, they are measured at fair value, plus, in the case of investments not at fair value through profit or loss, directly attributable transaction costs. The Government determines the classification of its financial assets on initial recognition and, where allowed and appropriate, re-evaluates this designation at each financial year end.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued) FOR THE YEAR ENDED 30 JUNE 2019

6. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial assets at fair value through profit or loss

Financial assets at fair value through surplus or deficit includes financial assets held for trading and financial assets designated upon initial recognition as at fair value through surplus or deficit. Financial assets are classified as held for trading if they are acquired for the purpose of selling in the near term.

Held-to-maturity investments

Non-derivative financial assets with fixed or determinable payments and fixed maturities are classified as held-to-maturity when the Government has the positive intention and ability to hold to maturity. After initial measurement held-to-maturity investments are measured at amortized cost using the effective interest method. Gains and losses are recognized in surplus/deficit when the investments are derecognized or impaired, as well as through the amortization process.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market.

After initial measurement loans and receivables are carried at amortized cost using the effective interest method less any allowance for impairment. Gains and losses are recognized in surplus/deficit when the loans and receivables are derecognized or impaired, as well as through the amortization process.

Available-for-sale financial investments

Available-for-sale financial assets are those non-derivative financial assets that are designated as available-for-sale or are not classified in any of the three preceding categories. After initial measurement, available-for-sale financial assets are measured at fair value with unrealized gains or losses recognized directly in equity until the investment is derecognized or determined to be impaired at which time the cumulative gain or loss previously recorded in equity is recognized in surplus/deficit.

Fair value: The fair value of investments that are actively traded in organized financial markets is determined by reference to quoted market bid prices at the close of business on the statement of financial position date. For investments where there is no active market, fair value is determined using valuation techniques. Such techniques include using recent arm's length market transactions; reference to the current market value of another instrument which is substantially the same; discounted cash flow analysis or other valuation models.

Amortized cost: Held-to-maturity investments and loans and receivables are measured at amortized cost. This is computed using the effective interest method less any allowance for impairment. The calculation takes into account any premium or discount on acquisition and includes transaction costs and fees that are an integral part of the effective interest rate.

s) Tax Deposits

These include Dar es Salaam Service Centre Customs & Excise Deposits, Escrow Deposits (Fuel), Container Deposits, Fuel Deposits, and other deposits in the Regions.

Custom Deposits – Security for Transaction

These are recognised as deposits upon receipts. Revenue is recognised when tax is assessed on transaction.

Custom Deposits - Provision on Clearance

These are recognised as deposits upon receipts. Revenue is recognised when tax is assessed on transaction. Excess deposit, if any, is then refunded to the taxpayer.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued) FOR THE YEAR ENDED 30 JUNE 2019

6. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Custom Deposits – Temporary Admission

These are recognised as deposits upon receipts. Revenue is recognised when the purpose for which they have been admitted is terminated and the goods has not been re-exported. When the goods are re-exported, the tax payer will receive a refund of the deposit.

Custom Deposits on Objection Tax and Domestic Deposits on Disputed Assessment These are recognised as deposits upon receipts. Upon the successful completion of the objection, the deposits are recognised as revenue. Otherwise, the deposit is refunded to the taxpayer.

t) Tax Refunds

Tax refund is recognised as a liability when the Authority has a present legal obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and a reliable estimate can be made of the amount of the obligation. The Authority received funds from the Treasury to cater for the payment of the refunds.

u) Treasury Voucher Cheques

Treasury Voucher Cheques (TVCs) are expenses paid through the tax system. These are payments made by the Treasury to the tax authority to cover for import and excise duties to exempted persons. The exempted persons in this regard are civil servants and public officials, Non-Governmental organisations and Religious organisations. The revenue is measured at fair value, and recognised as revenue upon declaration, as this is the time when revenue can be measured reliably. The amount due from Treasury at the end of the year is recognised as an asset.

v) Segmental Information

The nature of the Government as prescribed by the Public finance Act 2001(as revised 2004) section 25 requires Ministries, Department Agencies, RS, LGAs, independent Offices and State-Owned Enterprises to prepare its Financial Statements and submit to the Controller and Auditor General and Accountant General's Department for Consolidation purposes. Segmental information has been provided based on the sectors coverage, before elimination.

w) Impairment of financial assets

The Government has tested all the assets at the statement of financial position date whether a financial asset or group of financial assets is impaired.

Assets carried at amortized cost

The amount of the impairment loss has been measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future expected credit losses that have not been incurred) discounted at the financial asset's original effective interest rate (i.e. the effective interest rate computed at initial recognition).

The carrying amount of the asset is reduced through use of an allowance account. The amount of the loss shall be recognized in surplus/deficit. If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, the previously recognized impairment loss is reversed, to the extent that the carrying value of the asset does not exceed its amortized cost at the reversal date. Any subsequent reversal of an impairment loss is recognized in surplus/deficit.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued) FOR THE YEAR ENDED 30 JUNE 2019

6. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In relation to trade receivables, a provision for impairment is made when there is objective evidence (such as the probability of insolvency or significant financial difficulties of the debtor) that the entity will not be able to collect all of the amounts due under the original terms of the invoice. The carrying amount of the receivable is reduced through use of an allowance account. Impaired debts are derecognized when they are assessed as uncollectible.

Financial investments available-for-sale

If an available-for-sale asset is impaired, an amount comprising the difference between its cost (net of any principal payment and amortization) and its current fair value, less any impairment loss previously recognized in surplus/deficit, is transferred from equity to surplus/deficit. Reversals in respect of equity instruments classified as available-for-sale are not recognized in surplus/deficit. Reversals of impairment losses on debt instruments are reversed through surplus/deficit; if the increase in fair value of the instrument can be objectively related to an event occurring after the impairment loss was recognized in surplus/deficit.

x) Derecognition of financial assets and liabilities

Financial assets

A financial asset (or, where applicable a part of a financial asset or part of a group of similar financial assets) is derecognized where:

- The rights to receive cash flows from the asset have expired;
- The entity retains the right to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to a third party under a 'passthrough' arrangement; or
- The entity has transferred its rights to receive cash flows from the asset and either (a)
 has transferred substantially all the risks and rewards of the asset, or (b) has neither
 transferred nor retained substantially all the risks and rewards of the asset, but has
 transferred control of the asset.

Where the Entity has transferred its rights to receive cash flows from an asset and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognized to the extent of the entity's continuing involvement in the asset. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Entity could be required to repay.

Financial liabilities

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in the statement of financial performance.

y) Investment property

Investment property, which is property held to earn rentals and/or for capital appreciation, is measured initially at its cost, including transaction costs. Subsequent to initial recognition, investment property is measured at fair value. Gains or losses arising from changes in the fair value of investment property are included in the statement of financial performance for the period in which they arise.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued) FOR THE YEAR ENDED 30 JUNE 2019

6. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

z) Non-current assets held for sale

Non-current assets and disposal group are classified as held for sale if their carrying amount will be recovered through a sale transaction rather than through continuing use. This condition is regarded as met only when the sale is highly probable and the asset (or disposal group) is available for immediate sale in its present condition. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification. Non-current assets (and disposal group) classified as held for sale are measured at the lower of the assets' previous carrying amount and fair value less costs to sell.

aa) Taxpayer's fund/Share Capital

This is the monies invested by the Government to satisfy individual or collective needs or to create future economic benefits. It includes all monies invested on capital expenditure. In this context, Taxpayer's fund may include all resources contributed by tax payers directly for service potential or other economic future benefits for the public operations.

bb) Comparatives

To ensure consistency with the current period, comparative figures are reclassified where appropriate.

cc) Guarantees

Financial guarantee contracts issued by the Government are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognized initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the best estimate of the expenditure required to settle the present obligation at the reporting date and the amount recognized less cumulative amortization.

dd) Property, plant and equipment

Property, plant and equipment is stated at cost, excluding the costs of day-to-day servicing, less accumulated depreciation and accumulated impairment in value. Such cost includes the cost of any replacement parts in accordance with the related recognition criteria.

The Government has adopted straight line method for depreciation of Public Assets which is allocated systematically over the useful life of the respective assets, Government Asset Guidelines issued by DGAM and the applicable accounting policies. The depreciable amount of an asset shall be allocated on a systematic basis over its estimated useful life. The prevailing International Standard for depreciation shall be applied over the useful life of the assets. In accordance with the Generally Acceptable Valuation Principles (GAVP), depreciation for valuation purposes shall be the adjustment made to the replacement cost to reflect physical deterioration, functional and economic obsolescence.

Assets ran an economic life peculiar to themselves depending on make, constant handling and operational use. Some assets are continued in use much beyond the EUL due to periodical maintenance and repairs. Assets expected life are projected in ranges as follows:

The carrying values of cash – generating property, plant and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable.

Review of Assets Estimated Useful Life

Assets are subject to annual reviews to determine its remaining economic life. Consideration is given to the appropriateness of the assets value, its asset life and any other factor affecting its usefulness. Significant discrepancies lead to adjustment of the asset life or asset value. Whereas, heritage assets may vary in value over time and they are not subjected to normal depreciation.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued) FOR THE YEAR ENDED 30 JUNE 2019

6. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

ee) Property, plant and equipment (Continued)

An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of financial performance in the year the asset is derecognized.

The residual values, useful lives and methods of depreciating property, plant and equipment are reviewed, and adjusted if appropriate, at each financial year end. When each major inspection is performed, its cost is recognized in the carrying amount of property, plant and equipment as a replacement if the recognition criteria are satisfied.

The following recognition criteria are used for roads:

<u>Description</u>	<u>Years</u>
Road formation	20
Routine maintenance (expensed)	N/A
Spot maintenance*	
Periodic maintenance	
 Gravel roads 	4
Tarmac roads	10

^{*}Spot maintenance is evaluated on individual basis to determine whether they meet the recognition criteria for an asset, or need to be expensed.

ff) Impairment of non-financial assets

The Government assesses at each reporting date whether there is an indication that an asset may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the Government makes an estimate of the asset's recoverable amount. An asset's recoverable amount is the higher of an assets or cash generating unit's fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Impairment losses of continuing operations are recognized in the statement of financial performance in those expense categories consistent with the function of the impaired asset.

An assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the recoverable amount is estimated. A previously recognized impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognized. If that is the case the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the statement of financial performance. After such a reversal the depreciation charge is adjusted in future periods to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining useful life.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued) FOR THE YEAR ENDED 30 JUNE 2019

6. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

gg) Associates

An associate is an entity over which the Government has significant influence and that is neither a subsidiary nor an interest in a joint arrangement. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies. The results, assets and liabilities of associates are incorporated in these financial statements using the equity method of accounting, except when the investment is classified as held for sale, in which case it is accounted for under Noncurrent Assets Held for Sale and Discontinued Operations. Under the equity method, investments in associates are carried in the consolidated statement of financial position at cost as adjusted for post-acquisition changes in the Government's share of the net assets of the associate, less any impairment in the value of individual investments. Losses of an associate in excess of the Government's interest in that associate (which includes any long-term interests that, in substance, form part of the Government's net investment in the associate) are not recognized, unless the Government has incurred legal or constructive obligations or made payments on behalf of the associate.

Any excess of the cost of acquisition over the Government's share of the net fair value of the identifiable assets, liabilities and contingent liabilities of the associate recognized at the date of acquisition is recognized as goodwill. The goodwill is included within the carrying amount of the investment and is assessed for impairment as part of the investment. Any excess of the Government's share of the net fair value of the identifiable assets, liabilities and contingent liabilities over the cost of acquisition, after reassessment, is recognized immediately in surplus/deficit.

Where a Government transacts with an associate of the Government, profits and losses are eliminated to the extent of the Government's interest in the relevant associate.

hh) Interests in joint Venture

A joint arrangement is a contractual arrangement whereby the Government and other parties undertake an economic activity that is subject to joint control that is when the strategic financial and operating policy decisions relating to the activities require the unanimous consent of the parties sharing control. Where an entity undertakes its activities under joint Venture directly, the entity's share of jointly controlled assets and any liabilities incurred jointly with other venturers are recognized in the financial statements of the relevant entity and classified according to their nature. Liabilities and expenses incurred directly in respect of interests in jointly controlled assets are accounted for on an accrual basis. Income from the sale or use of the Government's share of the output of jointly controlled assets, and its share of joint Venture expenses, are recognized when it is probable that the economic benefits associated with the transactions will flow to/from the Government and their amount can be measured reliably.

Joint Venture that involves the establishment of a separate entity in which each participating party has an interest, are referred to as jointly controlled entities. The Government reports its interests in jointly controlled entities using proportionate consolidation, except when the investment is classified as held for sale, in which case it is accounted for under Non-current Assets Held for Sale and Discontinued Operations. The Government's share of the assets, liabilities, income and expenses of jointly controlled entities are combined with the equivalent items in the consolidated financial statements on a line-by-line basis. Any goodwill arising on the acquisition of the Government's interest in a jointly controlled entity is accounted for in accordance with the Government's accounting policy for goodwill arising on the acquisition of a subsidiary. Where the Government transacts with its jointly controlled entities, unrealized profits and losses are eliminated to the extent of the Government's interest in the joint arrangement investment.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued) FOR THE YEAR ENDED 30 JUNE 2019

7. SIGNIFICANT ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS

These financial statements reflect the financial position (service potential and financial capacity) as at 30 June 2019, and the financial results of operations and cash flows for the year ended on that date. Underpinning these financial statements are a number of judgments, estimations and assumptions. These include assumptions and judgments about the future, in particular, the service benefits and future cash flows in relation to existing assets and liabilities.

The preparation of the consolidated financial statements requires management to make judgments, estimates and assumptions that affect the disclosed amounts of assets and liabilities, and the disclosure of contingent liabilities, at the reporting date.

Judgments, Estimates and Assumptions

The preparation of these financial statements requires judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, revenue and expenses. For example, the present value of large cash flows that are predicted to occur a long time into the future, as with the settlement of outstanding claim obligations and Government pensions and retirement benefits, depends critically on judgments regarding future cash flows, including inflation assumptions and the risk-free discount rate used to calculate present values. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised, if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Judgments:

In the process of preparing the Government's financial statements, management has made the following judgment, apart from those involving estimations, which has the most significant effect on the amounts disclosed in the financial statements.

Recognition of tax revenue

Tanzania tax system is based on self-assessment where taxpayers are expected to understand the tax laws and comply with them. This has an impact on the completeness of tax revenues when taxpayers fail to comply with tax laws, for example, if they do not report all of their income.

Tax revenue is recognised on an accrual's basis in the period the taxable event occurs. It is deemed to accrue evenly over the period to which it relates. Where tax returns have not been filed for the relevant period, accrued tax revenue receivable or payable has been estimated based on current provisional assessments, prior year final assessments or any other information available to the Commissioner General at that particular time. The outcome of tax revenue and refunds is not known with certainty until income tax returns for the period have been filed. This usually occurs sometime after the publication of these financial statements.

Impairment of tax receivables

Tax receivables are reviewed for impairment losses whenever events or changes in circumstances indicate that the carrying amount may not be recovered. An impairment loss is recognized for the amount by which the carrying amount of the tax receivable exceeds its recoverable amount. Tax receivables are recognised on the assumption that the taxpayers will pay the tax assessed, and the amount can be measured reliably, if the assumption with regard to recoverability changes, the impairment is recognised.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued) FOR THE YEAR ENDED 30 JUNE 2019

7. SIGNIFICANT ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS (Continued)

Estimates and assumptions

Key assumptions

The estimations in these financial statements are based on the best information available at the time of their preparation. Given the inherent uncertainty of predicting the future, actual events are likely to differ from these assumptions, which may have a material impact on the results reported in these financial statements. Some of the key assumptions are discussed below. The valuation of many assets and liabilities are based on assumptions using market information. The most significant of these are:

Key	Methodology
Assumption	
Foreign exchange rates	Foreign currency denominated financial assets and liabilities are translated to Tanzania TZS (TZS) at the reporting date.
Share prices	Listed share investments, which consist of approximately 95% of the Government's total share investments, are based on quoted market prices at balance date.
Interest rates	The majority of marketable securities and borrowings are valued using current market yield curves.
Property prices	Where possible property owned by the Government is valued using market evidence. Property prices in relation to land and buildings can therefore impact the value of the Government's assets.

A number of long-term assets and liabilities are valued by estimating future cash flows which are then discounted to present value. Some of the cash flows, in particular those relating to long-term liabilities (Government's obligations) use assumptions to predict cash flows up as far as over 20 years into the future. Therefore, changes in a number of economic assumptions can have a significant impact of the Government's financial position and performance. Other key assumptions concerning the future and other sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the disclosed amounts of assets and liabilities within the next financial year are liabilities regarding utilities such as telephone, water and electricity.

- Except for those assets which have been revalued, the values given to assets are mere estimates based on the initial price or in line with its assumed wear and tear. Proper valuation is still going on.
- Verification of fixed assets (Property, Plant and Equipment) to complete the fixed assets registers for the migration to accrual.

8. FUTURE CHANGES IN ACCOUNTING POLICIES

Standards issued but not yet effective up to the date of issuance of the entity's financial statements are listed below. These listings of standards issued are those which the Government is reasonably expecting to have an impact on disclosures, financial position or performance when applied at a future date. The Government intends to adopt these standards when they become effective.

➤ IPSAS 41 – Financial Instruments: This standard is effective for annual financial statements covering periods beginning on or after January 1, 2022. The Government has taken a phased approach for the adoption of IPSAS 41 Financial instruments, where commercial public sector entities have adopted the standard for the year ended 30 June 2019.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued) FOR THE YEAR ENDED 30 JUNE 2019

➤ IPSAS 42 – Social Benefits: This standard is effective for annual financial statements covering periods beginning on or after January 1, 2022.

9. EXCHANGE RATES

All monetary amounts in the financial statements are expressed in Tanzanian TZS, the legal tender shown as TZS. The Tanzanian TZS closing rate (the Bank of Tanzania middle rate) for major currencies was:

Currency	30 June 2019	30 June 2018
United States Dollar (USD)	2,300.90	2,277.71
British Pound	2,925.82	2,979.01
Euro	2,615.89	2,641.23
Swedish Kronor	248.00	253.29
Japanese Yen	21.33	20.68

10. RISKS MANAGEMENT

The Government is subject to a number of financial and operational risks, hazards and strategic risks and is responsible for ensuring appropriate risk management strategies and policies are in place within any mandate provided by legislation. All types of risk associated with the Government activities are managed through the Policy Analysis Department in the Ministry of Finance and Planning through the Risk Management Framework.

a) Interest rate risk

Interest rate risk refers to the risk of loss due to adverse movement in interest rates. In general interest rate risk is managed strategically by issuing a mix of fixed and floating rate debt.

b) Foreign exchange risk

Foreign exchange risk refers to the risk of loss due to adverse movements in foreign exchange rates. A range of instruments is currently being used to minimize the Government's exposure to foreign exchange risk which includes currency.

c) Liquidity risk

Liquidity risk refers to the loss due to the lack of liquidity preventing quick or cost-effective liquidation products, positions or portfolios. Liquidity risk is managed on an individual entity basis, which generally requires entities to hold assets of appropriate quantity and quality to meet all their obligations as they fall due.

d) Credit risk

Credit risk refers to the risk of loss due to the non-performance by counterparties to discharge an obligation. Financial instruments which subject the Government to credit risk include bank balances and receivables, advances and investments. The entities within the Government reporting entity manage their exposure to credit risk by:

- Maintaining credit exposure only with highly rated institutions, for which the probability of default is low. The credit worthiness of counterparties is continuously monitored.
- Ensuring diversification of credit exposure by limiting the exposure to one financial institution.
- In some instances, requiring collateral from counterparties.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued) FOR THE YEAR ENDED 30 JUNE 2019

11 APPROVED BUDGET AND COMPOSITION OF ACTUAL AND BUDGET AMOUNTS

The approved budget is developed and prepared on the Cash Basis and for the same period (from 01st July 2018 to 30th June 2019).

There was no supplementary budget for the financial year. The original budget was approved by Legislative in June, 2018.

Under IPSAS 24 disclosure explaining the reasons for differences between the original and final budget is important, including whether those differences arise from reallocations within the budget or other factors such as policy shifts, natural disasters, or other unforeseen events.

Cash and Cash Equivalent with Government Bank	1,132,569,376	2,157,210,859
Short term Deposits	5,196,717,958	5,336,102,984
Other deposits - Domestic currency	16,205,780	16,205,780
Foreign Currency- Notes and Coins	166,476,373	168,679,399
Total	6,511,969,487	7,678,199,022
Note 58 - Fixed Deposits/Placements		
Fixed Deposit/Placement with Private Bank	440,398,994	471,416,505
Total	440,398,994	471,416,505
Note 59 - Holdings of Special Drawing Rights (SDRs)		
IMF Holding of Special Drawing Rights	67,392,346	3,232,160
Total	67,392,346	3,232,160
Note 60 - Quota in International Monetary Fund (IMF)		
Quota in IMF	1,266,185,402	1,268,292,685
Total	1,266,185,402	1,268,292,685
	· <u> </u>	

The Tanzania's quota in IMF stood at SDR 397.8 million equivalent to TZS 1,266,185.4 million (2018/; SDR 398.8 equivalent to TZS 1,268,292.7 million). On a quarterly basis, the IMF pays interest (remuneration) to those members who have a remunerated reserve tranche position at the adjusted rate of remuneration. As at 30th June, 2019, reserve tranche SDR 59.7 million (2018: SDR 59.7 million) whereas the adjusted rate of remuneration was 0.5 percent (20:18: 0.5 percent).

Participation in the HIPC initiative

The United Republic of Tanzania enjoys a debt relief program under the highly indebted poor countries (HIPC) initiative. Accordingly, the IMF administers a donor-contributed Fund in the form of poverty Reduction Guarantee Fund (PRGF) HIPC Trust Umbrella Account of Tanzania. The facility is used to settle part of Tanzania's PRGF Loans and when they fall due. As at 30th June, 2019, the facility had a nil balance (2018: nil).

Note 61 - Foreign currency marketable securities Transferrable deposits - Foreign currency	5,065,705,728	6,512,415,415
Total	5,065,705,728	6,512,415,415

These are financial assets consisting of foreign currency marketable securities that are internally managed, and portfolio externally managed by the World Bank Treasury under a special program known as Reserve Advisory Management Program (RAMP). Majority of such securities are sovereign issues with a minimum credit rating of AA, bearing fixed interest and specified maturities.

	2019	2018

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued) FOR THE YEAR ENDED 30 JUNE 2019

109. RELATED PARTY DISCLOSURE

Related party disclosure with the Government of United Republic of Tanzania (Tanzania Mainland) includes the Members of CABINET who are principal Executives and have significant influence over the decision of the Government. During the financial year 2018/19 there was no conflicting interests for reporting under this aspect.

16. EVENTS AFTER THE REPORTING DATE

There are no significant material post balance sheet events which require adjustment or disclosure in the financial statements.

17. TAX CONTINGENCIES

Contingent Assets

A contingent asset is a possible asset that arises from past events, and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the TRA.

a) Court cases

At the closure of financial year 2018/19, TRA had 953 tax cases at various appellate machineries with a total value of **TZS 364,304,714,354,169** and **USD 328,150,414** as analyzed below:

YEAR	NUMBER OF CASES	COURT OF APPEAL (TAX REVENUE APPEALS TRIBUNAL (TRAT)		TAX REVENUE APPEALS BOARD (TRAB)		TOTAL	
		TZS	USD	TZS	USD	TZS	USD	TZS	USD

b) Goods in Customs Warehouses (Un-entered Goods)

These are goods which have been abandoned in customs area and have remained unentered for more than twenty-one days from the day of importation. These goods are then moved to customs warehouses. If these goods stay in the customs warehouses for additional thirty days, they become due for auction. During the year ended 30th June 2019 there were 409 un-entered goods in customs warehouse and the fair value of these goods at the end of the year was TZS 23,224,166,652 (2018: 134,009,588,069). The summarized breakdown of these goods is as shown below:

No.	Descriptions	Number of	Estimated Taxes (TZS		
		Items	2018/2019	2017/2018	
1	Goods at TPA and TICTS	125	9,915,240,000	17,667,601,231	
2	Goods at ICDs	160	8,632,853,642	21,807,272,846	
3	Goods at Bonde warehouses	d 124	2,955,019,022	80,602,775,421	
4	Goods in Regions	666	1,721,053,988	13,931,938,571	
			23,224,166,652	134,009,588,069	

In some cases, particularly containerized cargo, it is not possible to determine the value of the goods which have not been declared and are in the customs warehouses. The estimated tax on these goods is not recognized as revenue. The tax to be collected on these kinds of goods will depend on the auction results.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENT (Continued) FOR THE YEAR ENDED 30 JUNE 2019

18. TAX CONTINGENCIES (Continued)

Contingent Liabilities

A contingent liability is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of TRA. In this case, TRA has contingent liability where possibility of an outflow of economic resources was considered and the fair value of the contingent liability was estimated to be TZS 179,326,986,403 and USD 291,432 (2018 TZS 549,520,001,743 and USD 51,956).

19. TAX EXEMPTIONS AND RELIEF

Tax exemptions are reductions or eliminations of the taxes normally imposed on individuals and organizations by the United Republic of Tanzania as provided for by tax laws. In order to be eligible for tax exemption, an organization must meet certain criteria that are specifically provided in the Tax laws.

Exemptions and relief are generally the incentives, waiver and/or benefits granted to taxpayers for payment of Import Duty, VAT, Excise Duty, income tax and Fuel levy under the Tanzania Investment Act, the Mining Act, and relevant Government Notices applicable to Religious and Charitable Organizations, Donor Funded Projects and Investors. Exemptions and relief granted during the financial year are shown below:

Summary Tax exemptions and Relief

Descriptions	2019	2018
	TZS	TZS
Customs and Excise	1,004,071,135,705	1,043,194,427,025

20. NATURAL RESOURCES AND TOURISM

Government of the United Republic of Tanzania conserves and protects the natural and cultural resources. The total area of natural forests in Tanzania is estimated to be 33.5 million hectares of forests and woodlands. These forests and woodlands are an important resources base for various economic activities in the country. The following are details of the natural resources.

Forest Division

Description	Area (000ha)	Percentage
TYPE OF FOREST		
Closed forests	1,400	4.18
Mangroves	115	0.34
Woodlands	31,985	95.48
Total	33,500	100.00
USE OF FOREST LAND		
Net productive area	23,755	78.04
Unproductive area	9,745	21.96
Total	33,500	100.00
LEGAL STATUS		
Forest reserves	13,059	38.98
Forest or woodlands within	2,000	5.97
parks		
Public forest lands	18,441	55.05
Total	33,500	100.00

Antiquities Division

The National Cultural Heritage Resources is administered by the Ministry of Natural Resources and Tourism through the Division of Antiquities. The Ministry has conducted researches on more than 500 sites country wise. 128 sites have been declared as Gazettes sites in the National Cultural Heritage Register. Among the 128 sites, seventeen (17) are directly administered by the Division of Antiquities and are open to public visitation.

THE GOVERNMENT OF TANZANIA NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued) FOR THE YEAR ENDED 30 JUNE 2019

23. TECHNICAL ASSISTANCE (SERVICE IN KIND)

In the financial year 2018/19, TRA continued to receive technical support from various Development Partners. The support was mainly through technical assistances in areas such as ICT security, operations, business and development; technical assistance to develop and implement comprehensive Taxpayer's communication strategy, develop an effective feedback mechanism and implement a comprehensive service culture program to all staff; support on international taxation and tax audits. Further technical support was provided on audit capacity and intelligence, investigations techniques and transfer pricing techniques; compliance risk management.

24. COMMITMENTS

Commitments are future expenses and liabilities to be incurred on contracts that have been entered into at the balance sheet date. Commitments are classified as:

- Capital commitments: aggregate amount of capital expenditure contracted for but not recognized as paid or provided for at balance sheet date
- Non-cancellable operating leases with a lease term of more than one year, and
- Other non-cancellable commitments (these may include consulting contracts)

Commitment for called up shares under the Treasury Registrar amounts to TZS 2.5 Trillion as at 20 June 2019 (2018: TZS 2.8 Trillion).

INDEPENDENT REPORT OF THE CONTROLLER AND AUDITOR GENERAL

Permanent Secretary and Paymaster General, Ministry of Finance and Planning, Jakaya Kikwete Street, The "Treasury Square Building", P.O. Box 2802, 40468 DODOMA.

Report on the audit of Consolidated Financial Statements of the Government of Tanzania for the financial year ended 30th June, 2019

Qualified Opinion

I have audited the consolidated financial statements of the Government of Tanzania, which comprise the Consolidated Statement of Financial Position as at 30th June, 2019 and the Consolidated Statement of Financial Performance, the Consolidated Statement of Changes in Net Assets/Equity, the Consolidated Cash Flows Statement and the Consolidated Statement of Comparison of Budget and Actual Amounts for the year then ended, as well as the Notes to the Financial Statements, including a Summary of Significant Accounting Policies.

In my opinion, except for the effects of the matters described in the basis for qualified opinion section of my report, the Consolidated Financial Statements present fairly in all material respects, the Financial Position of the Government of Tanzania as at 30th June, 2019, and its Financial Performance and its Cash Flows for the year then ended in accordance with International Public Sector Accounting Standards (IPSAS) Accrual basis of accounting and in the manner required by the Public Finance Act, 2001 (revised 2004).

Basis for Qualified Opinion

Mismatch of elimination between payables and receivables TZS 789.35 billion

My review of consolidated financial statements noted receivables of TZS 5,392,734,195,600 were eliminated against payables and accruals of TZS 6,182,079,208,670, resulting into un-eliminated balance of TZS 789,345,013,070. Management of the Ministry of Finance and Planning was unable to justify the noted mismatch and remained unadjusted. Thus, payables and accruals balance in the consolidated financial position has been misstated by TZS 789,345,013,070.

Controller and Auditor General

Understatement of comparative figure of assets TZS 1,213.89 billion

My review of PPE and intangible assets (Note 72 & 76) noted that the opening balances of cost and accumulated depreciation differs with the audited closing balance of 2017/18 which resulted into net understatement of TZS 1,202,414,566,000 and TZS 11,474,013,000 for PPE and Intangible assets respectively. The cost for PPE was overstated by TZS 395,931,416,000 while intangible assets were understated by TZS 7,934,708,000. Likewise, accumulated depreciation and amortization for PPE and intangible assets were understated by TZS 1,598,345,982 and TZs 3,539,306 respectively.

Mismatch of reported addition of PPEs and Intangible Asset TZS 399.26 billion

My review of PPE and intangible assets (Note 72 & 76) noted monetary addition of TZS 4,849,038,558,000 and TZS 75,483,165,000 respectively. However, these additions were not supported with the individual financial statements. Further, I noted that, the mismatch between individual financial statements and consolidated financial statements were attributed to aggregation of additions monetary and non-monetary, fair value adjustment, transfer and disposal. Furthermore, I noted mismatch of TZS 399,263,070,000 between reported total monetary additions in the consolidated cash flow statement of TZS 5,323,784,793,000 against TZS 4,924,521,723,000 in the movement schedules of PPE and intangible assets.

Overstatement of Government Securities TZS 1,224.09 billion

I noted non elimination of government securities (Treasury bills and bonds) owned by subsidiary (BoT) of TZS 1,257,650,150,000 contrary to para 40 (c) of IPSAS 35 which requires elimination in full inter entities assets and liabilities. Also, i noted non- recognition of corporate bonds TZS 33,564,194,000 contrary to the requirement of Para 40 (a) of IPSAS 35 which requires the consolidating entity to combine like items of assets, liabilities, net assets, revenue, expenses and cash flows. This has resulted into net overstatement of reported government securities in the consolidated financial statements of TZS 1,224,085,956,000.

Non-adjustment of impairment loss computed under Expected Credit Loss Model (IFRS 9) TZS 84,533,877,064

My review of consolidated financial statements (CFS) noted non-adjustment of impairment loss of financial assets computed under expected credit loss (ECL) model of TZS 84,533,877,064. Subsidiaries reporting under International Financial Reporting Standard (IFRS) Framework have adopted IFRS 9 (financial

Controller and Auditor General

instrument) from 1st January, 2018 which has changed the computation of impairment loss from incurred loss model to ECL.

However, management has neither adopted IPSAS 41¹ (Financial Instrument) nor adjusted impairment loss of subsidiaries computed under ECL model to align with incurred loss model under IPSAS 29. This is contrary to para 41 of IPSAS 35 which requires adjustment when members of the economic entity use accounting policies other than those adopted in the consolidated financial statements.

I conducted my audit in accordance with International Standards of Supreme Audit Institutions (ISSAIs). My responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the financial statements section of my report. I am independent of Government of Tanzania in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) together with the ethical requirements that are relevant to my audit of the financial statements in Tanzania, and I have fulfilled my other ethical responsibilities in accordance with these requirements and the IESBA Code.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Other information to report

Management is responsible for the other information. The other information comprises of the Statement by the Honourable Minister, the Statement by the Paymaster General, the Statement of Management Responsibility on the Financial Statement, Commentary on the Financial Statements and the Declaration by the Head of Finance but does not include the financial statements and our auditor's report thereon.

My opinion on the financial statements does not cover the other information and I do not express any form of assurance conclusion thereon. In connection with my audit of the financial statements, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or my knowledge obtained in the audit, or otherwise appears to be materially misstated.

IPSAS	41	is a	replica	of IE	RS	9

Controller and Auditor General

If, based on the work I have performed on the other information that there is a material misstatement of this other information, I am required to report that fact. I have nothing to report in this regard.

Key Audit Matters

Key audit matters are those matters that, in my professional judgment, were of most significance in my audit of the financial statements of the current period. These matters were addressed in the context of my audit of the financial statements as a whole, and in forming my opinion thereon, and I do not provide a separate opinion on these matters. I have determined that there are no key audit matters to communicate in my report.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IPSASs, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the entity's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the entity or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the entity's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISSAIs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Controller and Auditor General

In addition, Sect. 10 (2) of the PAA No.11 of 2008 requires me to satisfy myself that, the accounts have been prepared in accordance with the appropriate accounting standards.

Further, Sect. 48 (3) of the Public Procurement Act No.7 of 2011 requires me to state in my annual audit report whether or not the audited entity has complied with the provisions of the Law and its Regulations.

Charles E. Kichere,

CONTROLLER AND AUDITOR GENERAL

March 2020

CC: The Chief Secretary,
President's Office - State House,
1 Julius Nyerere Road,
Chamwino,
P. O. Box 1102,
40400 DODOMA.

Permanent Secretary and Paymaster General, Ministry of Finance and Planning, Government City - Mtumba, Hazina Street, P.O. Box 2802, 40468 DODOMA.
