It was agreed by both parties that delivery of medical equipment will be within 12 weeks after the effectiveness of the contract.

iv) ADVANCE PAYMENT

It was presented before the negotiation committee by the side of the client that the request for advance payment at a tune of 65% upon presentation of insurance bond from reputable insurance company has not been accepted by the Client. The client was ready to pay the supplier the Advance Payment the amount not exceeding 50% of the contract price. However, it was stressed that such payment must be supported by the issuance of Bank Guarantee from reputable financial institution and **NOT** Insurance Bond.

It was elaborated by the supplier that all the prices which have quoted were VAT exclusive. It was therefore discussed and agreed that medical devices and equipment have been exempted from VAT. It was therefore requested by the Supplier that in order to have a smooth execution of the contract Client should send a letter of introduction to TRA to introduce the Supplier (KAS Medics Ltd) regarding the contract entered between the two parties is for medical use. The matter was received by the Supplier with concern. The supplier responded by saying that advance payment of 50% with submission of Bank Guarantee of the same amount will not help them at all to execute the contract successfully because a lot of money will be held back by the bank hence delimiting the liquidity they need to operate the business.

After discussion, it was proposed and agreed by both parties that in order each party to be assured of safety of money in the operation of business, payment should be done through **Letter of Credit (LC)** in which it was proposed that 80% of the contract price will be paid to supplier on shipment of medical devices and after the supplier has submitted to the Client the following documents;

After discussion it was agreed by both parties that payment should be done through Letter of Credit (LC) which will be opened in favor of both parties.

v) **TAX MATTERS**

It was presented by the Negotiation Committee on the side of the Client that tax matters need to be clearly understood by both parties.
